**SAVI™, the Security Access-Control Vulnerability Index™ is what we created for security professionals to use as an objective, brand-agnostic audit tool to evaluate any school's access control vulnerability.** You simply survey what kinds of security they have in place, and SAVI automatically calculates a score for them now. Then you use that to create a plan of actionable next-steps you can suggest and deploy, to improve their security and SAVI score, ranging from adding ballistic glass or better gates, to classroom intruder- or standalone

digital access -locks with lockdown function or keyfobs. Or, from adding networked wireless locks with near-instantaneous global lockdown, to implementing an access control systems for a few doors to many, in real time.

**Become a certified SAVI professional.** We'll show you how. You'll learn how to market, approach and make a positive impact in the educational market that so desperately needs objective answers and your expertise. **Call us 1-800-ALA-LOCK for training today or email SAVI@alarmlock.com.**
