Subject: Adding Multiple User Codes - Shortcut

Models: All IQ Series Locksets

Multiple user codes can be added to the lock without having to exit and re-enter program mode. At the end of the "Add User" sequence, replace the last star (*) button with the pound (#) button, and add the next user code at the function number (01).

Example:

Adding two user codes ("123-456" and "654-321") to Group 10:

Without Using the Shortcut:

Master Code # 01 * 123 * 10 * 456 * *

Master Code # 01 * 654 * 10 * 321 * *

Using the Shortcut:

Master Code # 01 * 123 * 10 * 456 * # 01 * 654 * 10 * 321 * *
