4. Guidance for Existing Installations

- Installed products may continue to operate in their current applications.
- Customers should maintain records of installed locations and consider future replacement planning.
- Replacement units may no longer be available after remaining inventory is depleted.
- For application-specific alternatives, contact a NAPCO representative before specifying a substitute product.

5. Frequently Asked Questions

Why is GEM-TEMP64 being discontinued?

The product has reached end of life because of component shortage and obsolescence.

Can customers still order GEM-TEMP64?

Orders may be accepted only while remaining inventory is available.

Is there a direct replacement?

No direct replacement has been identified in this draft notice.

Are installed units affected?

This notice does not require customers to remove installed units.

Will technical support and repair continue?

Support and repair are subject to NAPCO standard support policies and replacement-parts availability.

Disclaimer

Product availability, lifecycle dates, support commitments, and replacement recommendations are subject to final approval and may change without notice. NAPCO Security Technologies, Inc. reserves the right to revise this notice as business and supply conditions require.
